## BRIEF BIO

Hans Van de Bovenkamp is an architectural designer and a sculptor. He has earned an international reputation over the past 50 years for designing, fabricating, installing and maintaining unique sculptures and fountains in collaboration with architects and designers. His works can be seen in public, civic, corporate and private collections. He has executed over 100 commissions.

## ARTIST STATEMENT

"For me, making sculpture is both a spiritual and an artistic act. The studio is my playground, my laboratory, my sanctuary, where I practice and experiment with sculptural ideas. When I am working I am truly living in the present moment: focused and aware of choices as I make them, functioning in an elevated state between the conscious and the subconscious. Over time, I have been fortunate to gather together enough skill and vision to realize my ideas as they have come into my heart. Art for me is a way of life, not just a passion."
